Explanation

- Public safety radios are critical for two-way voice communication for all public safety first responders, such as Fire, Medic, Police, and the Sheriff's Office.
- Radios also provide critical communications for city and Mecklenburg County field service employees and dispatchers. City departments currently using radios include: Transportation, Solid Waste Services, Charlotte Water, CATS, and Aviation.
- All public safety radios must be compatible with the city's system.
- On March 19, 2019, the city issued a Request for Proposals (RFP) for the city and on behalf of the Charlotte Cooperative Purchasing Alliance; four responses were received.
- The companies selected best meet the city's needs in terms of qualifications, experience, cost, and responsiveness to RFP requirements.
- Total annual expenditures are estimated to be \$3,500,000.
