6. NON-DISCRIMINATION PROVISION

PROJECT: FIREFIGHTING TURNOUT GEAR

All requests for bids or Bids issued for City contracts shall include a certification to be completed by the Bidder or Proposer in substantially the following form:

The undersigned Bidder or Proposer hereby certifies and agrees that the following information is correct:

1. In preparing it's the enclosed bid or Bid, the Bidder or Proposer has considered all bids and Bids submitted from qualified, potential subcontractors and suppliers, and has not engaged in discrimination as defined in **Section 5.**
2. For purposes of this form, discrimination means discrimination in the solicitation, selection, or treatment of any subcontractor, vendor or supplier on the basis of race, ethnicity, gender, age, religion, national origin, marital status, familial status, sexual orientation, gender identity, gender expression or disability or any otherwise unlawful form of discrimination. Without limiting the foregoing, discrimination also includes retaliating against any person or other entity for reporting any incident of discrimination.
3. Without limiting any other remedies that the City may have for a false certification, it is understood and agreed that, if this certification is false, such false certification will constitute grounds for the City to reject the bid or Bid submitted with this certification, and terminate any contract awarded based on such bid or Bid It shall also constitute a violation of the City's Commercial Non-Discrimination Ordinance and shall subject the Bidder or Proposer to any remedies allowed thereunder, including possible disqualification from participating in City contracts or bid processes for up to two years.
4. As a condition of contracting with the City, the Bidder or Proposer agrees to promptly provide to the City all information and documentation that may be requested by the City from time to time regarding the solicitation and selection of suppliers and subcontractors in connection with this solicitation process. Failure to maintain or failure to provide such information shall constitute grounds for the City to reject the bid or Bid and to any contract awarded on such bid or Bid. It shall also constitute a violation of the City's Commercial Non-Discrimination Ordinance, and shall subject the Bidder or Proposer to any remedies that are allowed thereunder.
5. As part of its bid or Bid, the Bidder or Proposer shall provide to the City a list of all instances within the past ten years where a complaint was filed or pending against Bidder or Proposer in a legal or administrative proceeding alleging that Bidder or Proposer discriminated against its subcontractors, vendors, suppliers, or commercial customers, and a description of the status or resolution of that complaint, including any remedial action taken.
6. As a condition of submitting a bid or Bid to the City, the Bidder or Proposer agrees to comply with the City's Commercial Non-Discrimination Policy as described in **Section 5**, Article V of the Charlotte City Code, and consents to be bound by the award of any arbitration conducted thereunder.

Contract# 269-2016-086 CCPA Plan

Ms. Carothers,

Attachment 2, 3.1,

(A)1.
MES is currently authorized to sell the Globe/Cairns brand product lines in the following areas:

Authorized Territories include all of: North Carolina, South Carolina, Virginia, Tennessee, Illinois, Maryland, Delaware, North Dakota, South Dakota, Minnesota, Iowa, Nebraska, Kansas, Missouri. We also cover: Eastern West Virginia, Eastern New York and Western Massachusetts.

(A)2.
We have a staff of sales representatives that cover specific geography in each of the respective areas. These individuals are all trained and can provide specification consultation along with on-site measuring to any agency that wishes to purchase thru the CCPA agreement. We are not authorized to sell in the areas that are not listed above.

(B)
MES began utilizing a new company-wide, operating system called Netsuite, effective 02/01/16. This new system will better assist MES in monitoring all purchases by the City of Charlotte as well as those made by CCPA members as specific contracts can be selected for each sales order. All data can be directly exported to an Excel spreadsheet as shown in the provided sample for quarterly reporting. Every detail of each sales order including but not limited to customer name, customer purchase order number, item quantities, item descriptions, date of order entry, date of shipment, and shipment tracking will be available in the spreadsheet format.

(C)1.
In the event MES is awarded this contract, the new MES logo will be available for posting directly on the CCPA website.

(C)2.
MES is in the process of updating our website, www.mesfire.com. If awarded, we will add the CCPA logo and website link to the MES website.

(C)3.
MES will assist in marketing the CCPA contract by providing contract details in the form of sales flyers to all sales personnel in the respective Globe/Cairns territories for handouts to customers. As mentioned above, CCPA logo and website link will be posted on the MES website. We will also provide space at regional trade shows for table top presentation and advertisement of the CCPA contract. MES may also elect to attend regional events for procurement professionals where the CCPA contract would be advertised and our assistance to answer questions regarding the contract would be mutually beneficial.

I will serve as the primary point of contact (POC) for this contract.

Please let me know if you have any questions.

Regards,

Dean Hill

Globe Manufacturing Company, LLC

Limited Warranty for Globe Firefighter Suits
and
Globe Cairns Protective Clothing

Globe warrants its firefighters' protective clothing to be free from defects in materials and workmanship for their serviceable life when properly used and cared for. Our obligation under this warranty shall be limited to the repair or replacement, without charge, of any product which is returned to Globe at buyer's expense and is determined by us to be defective in materials or workmanship, but is otherwise serviceable.

This warranty shall not be effective unless the products are used for the purpose for which they were designed and are used by trained personnel following proper fire fighting procedures and in accordance with the product's warning, use, inspection, maintenance, care, storage, and retirement instructions. Failure to properly care for the garment will lead to a shortening of the serviceable life.

"Serviceable" refers to the general condition of the garment which can be expected to provide at least reasonable limited protection against the hazards from which the garment was designed to protect. "Serviceable life" is the period of time protective clothing, which has been properly cared for, can be expected to provide reasonable limited protection. "Defects in Materials" refers to weak areas or other flaws caused by irregularities in their manufacture. "Defects in Workmanship" refers to improperly manufactured seams, stitching, or other construction methods.

This warranty does not cover wear and tear nor damage from fire, heat, chemicals, misuse, accident or negligence.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. The remedy of repair or replacement for breach of this warranty shall be the sole and exclusive remedy and Globe shall not under any circumstances be liable for incidental or consequential damages.

Limited Warranty for Globe Firefighter Suits and Globe Cairns Protective Clothing

Globe warrants its firefighters' protective clothing to be free from defects in materials and workmanship for their serviceable life when properly used and cared for. Our obligation under this warranty shall be limited to the repair or replacement, without charge, of any product which is returned to Globe at buyer's expense and is determined by us to be defective in materials or workmanship, but is otherwise serviceable.

This warranty shall not be effective unless the products are used for the purpose for which they were designed and are used by trained personnel following proper fire fighting procedures and in accordance with the product's warning, use, inspection, maintenance, care, storage, and retirement instructions. Failure to properly care for the garment will lead to a shortening of the serviceable life.

"Serviceable" refers to the general condition of the garment which can be expected to provide at least reasonable limited protection against the hazards from which the garment was designed to protect. "Serviceable life" is the period of time protective clothing, which has been properly cared for, can be expected to provide reasonable limited protection. "Defects in Materials" refers to weak areas or other flaws caused by irregularities in their manufacture. "Defects in Workmanship" refers to improperly manufactured seams, stitching, or other construction methods.

This warranty does not cover wear and tear nor damage from fire, heat, chemicals, misuse, accident or negligence.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. The remedy of repair or replacement for breach of this warranty shall be the sole and exclusive remedy and Globe shall not under any circumstances be liable for incidental or consequential damages.

2016 Dealer Authorization Form

All Sales by Globe Manufacturing Company, LLC and its affiliates (collectively "Globe") are subject to the following standard policies, terms and conditions of sale. "Products" refers to any products sold by Globe. "Dealer" refers to the entity listed herein as an Authorized Dealer to purchase Products from Globe, and "End-Users" refers to government agency, company, or individual who is the final purchaser and user of the Products. Globe reserves the right to amend, terminate, and deviate from any of the terms of this Dealer Authorization Form. All terms are subject to Globe's sole and unlimited discretion.

Goals and Expectations for all Globe Dealers

- Globe wants only the best dealers in the country.
- Globe wants each dealer to be a profitable and ethical business.
- Globe wants each dealer to grow their market share with Globe products.
- Globe wants dealers to win End-Users' business away from competitor brands by demonstrating the quality of Globe products.
- Globe dealers will comply with all applicable laws, rules, and regulations in their efforts to market and sell Globe products.
- Globe dealers will not initiate or participate in any illegal, collusive conduct in any aspect of their work to market and sell Globe products.
- Globe will support dealers with training, literature, promotional assistance, and a presence at major trade shows.
- Globe will strive to support dealership goals when mutually agreed.
- Globe will provide the support of a Regional Sales Manager to provide training to dealer salespeople, and make joint calls.
- Globe expects dealers to be more than "order takers" and make a professional effort to "sell" the Globe products.
- Globe wants a constructive dialog with each dealer.
- Globe expects each dealer to call on every department in their region regularly.

Authorized Location(s):

Products may be sold only through Authorized Location(s) to End-Users. Resale or transshipping of Products to other locations or other accounts is not allowed without prior permission of the Regional Sales Manager. Drop shipments, when requested by Dealers, will be made to End-Users only within the Dealer's Authorized Territory.

Please include a detailed map of territory and a complete list below.

G-XCEL® STYLE JACKET

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

Lightweight and flexibility are hallmarks of this all-new chassis. With a longer back and shorter front, you get more overlap where you need it with less where you don't. So everything about this contemporary design feels just right.

GLOBE QUICK SHIP PROGRAM

AVAILABLE ON G–XCEL® STYLE

Quick Ship Time ▶ 17 to 24 Days

Large Selection of Materials and Colors
All Standard Materials and Colors are Available

Large Selection of Options
All Standard Options are Available – Lettering Available Only on Back of Jacket.

- ▶ Orders Must be Submitted on This Custom Order Form
- ▶ Pricing is Based on Distributor's Standard Discount, Less 5 Points
- ▶ Orders Shipped for Second Day Delivery
- ▶ Maximum Order Size – 40 Pieces

EXCEPTION TO QUICK SHIP PROGRAM

All items on price list are available for Quick Ship Program with the exception of those listed below

Hem Rope pocket
4" or larger letters
Zipper legs
Removable knees
NOMEX® belt with dee ring
All mask pouch pockets – sewn or detachable
All escape belt pants
Any escape pockets (rope pockets)
Trim on pants pockets
Thermal sleevewell
Reversed closures
Environmental Seal
Insert Torso pocket

G-XCEL® LETTERING GUIDELINES

BASED ON SIZE 44

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

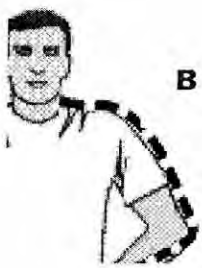
B SLEEVE – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applic

D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.

- ▶ DO NOT take own measurements.
- ▶ Stand straight but relaxed, feet about 12" apart.
- ▶ Wear identical clothing and accessories that will be worn under turnout.
- ▶ Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- ▶ List any special considerations such as unusual height, weight or physical characteristics.



B MEASUREME
(begin at cente
of back of neck

REAXTION® PANTS
OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

When called into action, you need to fight the fire – not your gear. That's when the added length and fullness in the AXTION® Seat and Kneed combine to allow you to move unlike any other turnout gear. And with its adjustable belt, REAXTION® fits you like you always wanted – like a pair of jeans.

CAIRNS QUICK SHIP PROGRAM

AVAILABLE ON REAXTION® STYLE

Quick Ship Time ▶ 17 to 24 Days

Large Selection of Materials and Colors
All Standard Materials and Colors are Available

Large Selection of Options
All Standard Options are Available

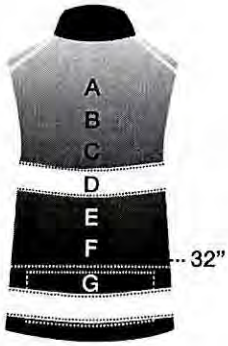
- Orders Must be Submitted on This Custom Order Form
- Pricing is Based on Distributor's Standard Discount, Less 5 Points
- Orders Shipped for Second Day Delivery
- Maximum Order Size – 40 Pieces

EXCEPTION TO QUICK SHIP PROGRAM

All items on price list are available for Quick Ship Program with the exception of those listed below

- Hem Rope pocket
- 4" or larger letters
- Zipper legs
- Removable knees
- NOMEX® belt with dee ring
- All mask pouch pockets – sewn or detachable
- All escape belt pants
- Any escape pockets (rope pockets)
- XPS (REAXTION® only)
- Trim on pants pockets
- Thermal sleeve well
- Reversed closures
- Environmental Seal
- Insert Torso pocket

REAXTION® LETTERING GUIDELINES



BASED ON SIZE 44

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

CAIRNS MEASUREMENT INSTRUCTIONS

IMPORTANT: Cairns turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

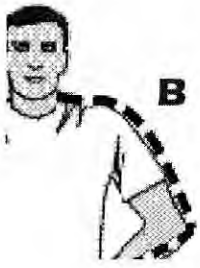
B SLEEVE – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.

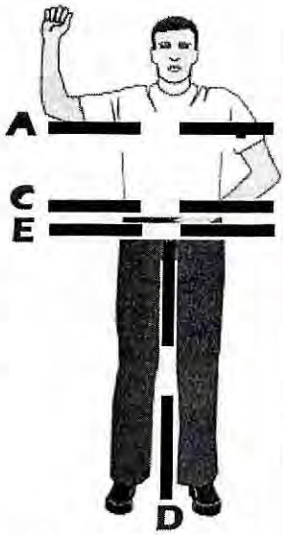
D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.

- DO NOT take own measurements.
- Stand straight but relaxed, feet about 12" apart.
- Wear identical clothing and accessories that will be worn under turnout.
- Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- List any special considerations such as unusual height, weight or physical characteristics.



MEASUREMENT (begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)



CAIRNS Protective Clothing products are manufactured by Globe Manufacturing Company, LLC. GLOBE, CAIRNS, REAXTION, AXTION, COLLARBREAK, DRAGONHIDE, SILIZONE and designs are trademarks of Globe Holding Company, LLC. All prices are F.O.B. Factory and subject to change without notice.

All Standard Options are Available

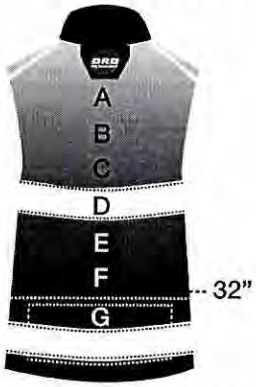
- ▶ Orders Must be Submitted on This Custom Order Form
- ▶ Pricing is Based on Distributor's Standard Discount, Less 5 Points
- ▶ Orders Shipped for Second Day Delivery
- ▶ Maximum Order Size – 40 Pieces

EXCEPTION TO QUICK SHIP PROGRAM

All items on price list are available for Quick Ship Program with the exception of those listed below

- 4" or larger letters
- Zipper legs
- Removable knees
- All mask pouch pockets – sewn or detachable
- All escape belt pants
- Any escape pockets (rope pockets)
- Trim on pants pockets

CLASSIX® LETTERING GUIDELINES



BASED ON SIZE 44

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

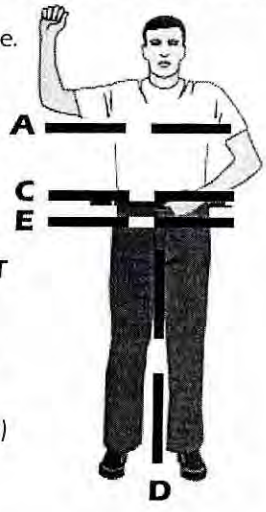
A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

B SLEEVE – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.

D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.



- ▶ DO NOT take own measurements.
- ▶ Stand straight but relaxed, feet about 12" apart.
- ▶ Wear identical clothing and accessories that will be worn under turnout.
- ▶ Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- ▶ List any special considerations such as unusual height, weight or physical characteristics.

B MEASUREMENT
(begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)

GLOBE products are manufactured by Globe Manufacturing Company, LLC or Globe Manufacturing Company – OK, LLC. GLOBE, CLASSIX, CLASSIX METRO, DRAGONHIDE, SILIZONE and designs are trademarks of Globe Holding Company, LLC. All prices are F.O.B. Factory and subject to change without notice.

CLASSIX® PANTS

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

This low-rise style provides a modern "street" fit and with the added length you need for mobility in the knee and seat to bend, the pants don't ride down. Together with the extended back on the jacket, you can maintain generous overlap even with these lower rise pants..

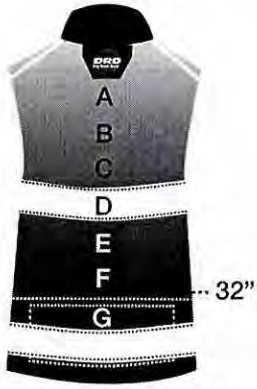
Removable knees
NOMEX® belt with dee ring
All mask pouch pockets – sewn or detachable
All escape belt pants
Any escape pockets (rope pockets)
Trim on pants pockets
Thermal sleevewell
Reversed closures
Environmental Seal
Insert Torso pocket

CLASSIX® LETTERING GUIDELINES



BASED ON SIZE 44

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

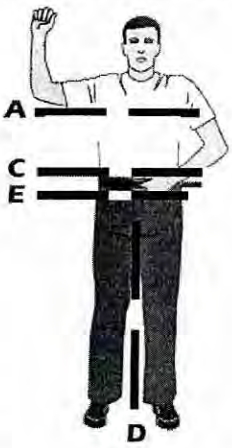
A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

B SLEEVE – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

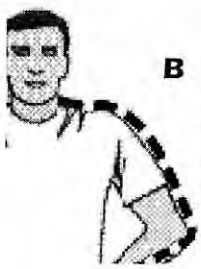
C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.

D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.



- DO NOT take own measurements.
- Stand straight but relaxed, feet about 12" apart.
- Wear identical clothing and accessories that will be worn under turnout.
- Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- List any special considerations such as unusual height, weight or physical characteristics.



B MEASUREMENT (begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)

GLOBE products are manufactured by Globe Manufacturing Company, LLC or Globe Manufacturing Company – OK, LLC. GLOBE, CLASSIX, DRAGONHIDE, SILIZONE and designs are trademarks of Globe Holding Company, LLC. All prices are F.O.B. Factory and subject to change without notice.

GX-7™ PANTS

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

This low-rise style provides a modern "street" fit and with the added length you need for mobility in the knee and seat to bend, the pants don't ride down. Together with the extended back on the jacket, you can maintain generous overlap even with these lower rise pants..

Zipper legs
Removable knees
NOMEX® belt with dee ring
All mask pouch pockets – sewn or detachable
All escape belt pants
Any escape pockets (rope pockets)
Trim on pants pockets
Thermal sleevewell
Reversed closures
Environmental Seal
Insert Torso pocket

GX-7™ LETTERING GUIDELINES

BASED ON SIZE 44

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

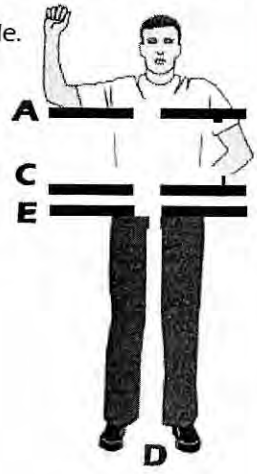
A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

B SLEEVE – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

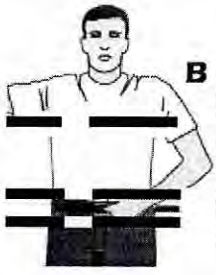
C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.

D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.



- ▶ DO NOT take own measurements.
- ▶ Stand straight but relaxed, feet about 12" apart.
- ▶ Wear identical clothing and accessories that will be worn under turnout.
- ▶ Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- ▶ List any special considerations such as unusual height, weight or physical characteristics.



B MEASUREMENT (begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)

GLOBE products are manufactured by Globe Manufacturing Company, LLC or Globe Manufacturing Company – OK, LLC. GLOBE, GX-7, AXTION, DRAGONHIDE, SILIZONE and designs are trademarks of Globe Holding Company, LLC. All prices are F.O.B. Factory and subject to change without notice.

G-XTREME® 3.0 STYLE JACKET

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

With all the features of our original G-XTREME® including Globe's exclusive AXTION® Back and Sleeve, the new G-XTREME® 3.0 jacket is retailored in the chest, shoulder, and sleeve for even more mobility. The lower collar with a deeper neck opening is more flexible, less restrictive, and better fitting, even with your hood on. And like the original, G-XTREME® 3.0 comes in SHAPES to fit your body better.

G-XTREME® 3.0 LETTERING GUIDELINES

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

BASED ON SIZE 44

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

ZIPPERGRIPPER™ (Optional)

Liner Access Opening

AXTION® Back

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

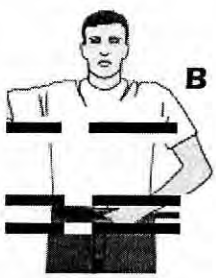
B SLEEVE – No need to measure since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.

D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.

- DO NOT take own measurements.
- Stand straight but relaxed, feet about 12" apart.
- Wear identical clothing and accessories that will be worn under turnout.
- Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- List any special considerations such as unusual height, weight or physical characteristics.



MEASUREMENT (begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)

G-XTREME® PANTS

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

Finally, turnout pants that fit like a pair of jeans. With their adjustable belt and elasticized back transferring weight to your hips, suspenders are a preference, not a necessity. The AXTION® Seat and AXTION® Knee work together to give you completely unrestricted movement when you bend over, squat down, step up, sit down, kneel, or crawl. And G-XTREME® comes in SHAPES to fit your body like never before.

All mask pouch pockets – sewn or detachable
All escape belt pants
Any escape pockets (rope pockets)
Trim on pants pockets
Thermal sleevewell
Reversed closures
Environmental Seal
Insert Torso pocket

G-XTREME® LETTERING GUIDELINES

BASED ON SIZE 44

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

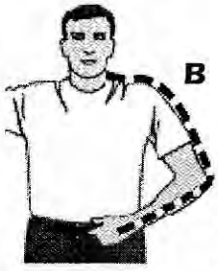
B SLEEVE – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.

D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.

- ▶ DO NOT take own measurements.
- ▶ Stand straight but relaxed, feet about 12" apart.
- ▶ Wear identical clothing and accessories that will be worn under turnout.
- ▶ Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- ▶ List any special considerations such as unusual height, weight or physical characteristics.



MEASUREMENT
(begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)

IH™ READY, LH, AFL PANTS

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

Your choice of internal Class 2 Seat Harnesses or a Personal Escape Belt certified to NFPA 1983 (Life Safety Rope and Equipment). Harnesses feature our patented floating leg loop system. Leg loops stay down out of your business except when you load the harness, pulling them up into the correct seat position and equalizing the load. Leg loops are hardware-free so there's nothing to dig into your legs. Made from KEVLAR®, these harnesses meet NFPA 1971 (Structural Fire Fighting) requirements when installed in the pants. Not ready to upgrade to an internal harness? Add it later without alteration.

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

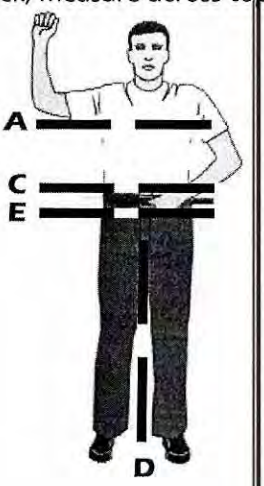
A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

B SLEEVE – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.

D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.



- DO NOT take own measurements.
- Stand straight but relaxed, feet about 12" apart.
- Wear identical clothing and accessories that will be worn under turnout.
- Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- List any special considerations such as unusual height, weight or physical characteristics.

B MEASUREMENT (begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)

IH Series 1

IH Series 2 (Carabiner sold separately)
